RELEVANT INFORMATION

Interconexión Eléctrica S.A. E.S.P. (ISA) informs the market that, following recent public statements made by the President of the Republic on his X account regarding procurement processes carried out by ISA companies in Peru, today, May 29, 2026, the company responded through a formal communication to the President.

This communication outlined the main actions and considerations taken in response to these statements, which are summarized below:

1. The concerns expressed by the President were addressed with the highest priority and in accordance with the company's corporate protocols, as is standard practice for this type of request. ISA immediately activated its verification mechanisms, including internal and external audits, to conduct a comprehensive review of the facts and provide clarity to the President and its stakeholders. Furthermore, ISA stated that if any findings warrant it, they will be reported to the competent authorities
2. ISA reiterated that it has a strong ethics and integrity program aligned with international standards, along with robust systems for control, compliance, and risk management, which are periodically audited by internal, external, and independent entities. It also highlighted strict compliance with the Sarbanes-Oxley Act (SOX) and the highest ratings granted by the Office of the Comptroller General in its most recent financial audit
3. The company also reported that its Board of Directors and management are fully committed to carrying out all necessary processes to provide complete clarity regarding the concerns raised by the President and reaffirmed that the company operates under principles of independence, neutrality, and strict adherence to institutional frameworks.

ISA reiterates its commitment to transparency, regulatory compliance, and trust-building in the market and will continue to timely disclose any events that may be relevant to its investors and stakeholders
